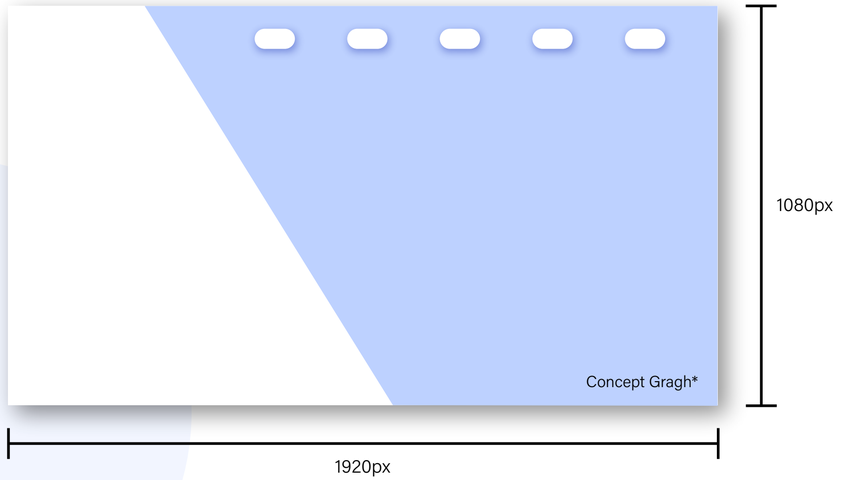
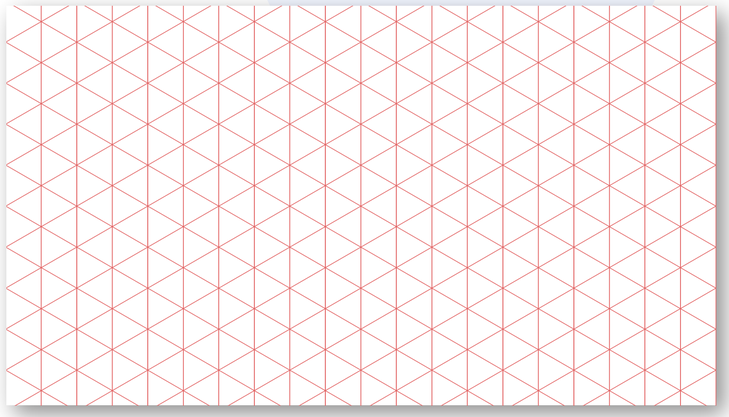
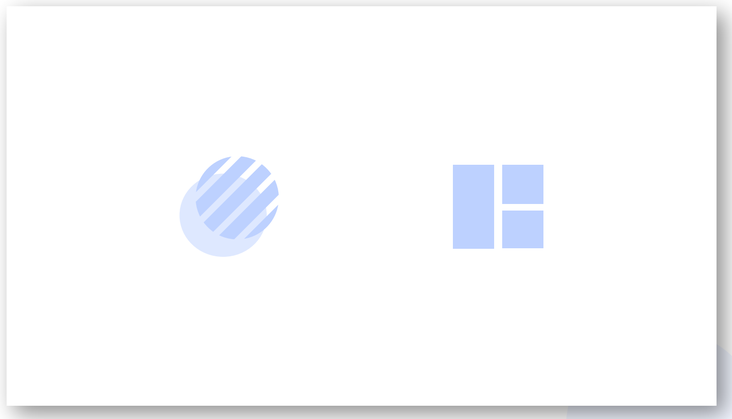
Final Projects Idea:



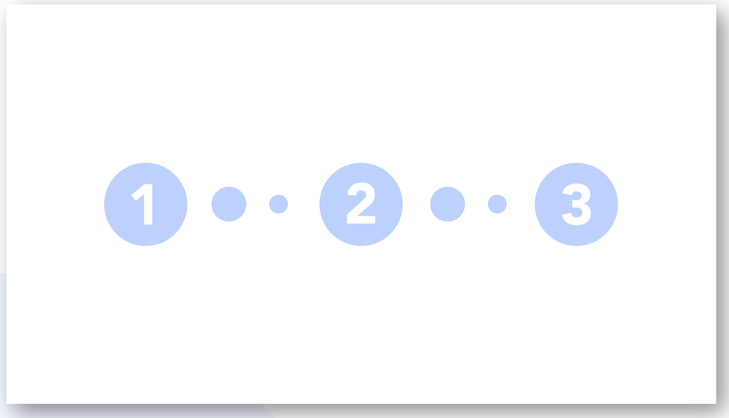
- I want to do something alike my midterm project, but it should have a different concept within the design.
- A Creative Project about Isometric design. This includes introduction and tutorial of simple making of a isometric shapes.
- Requires pages transition effects, which depends on the difficulty of coding. Hyperlinks, and basic web pages design on HTML/CSS.



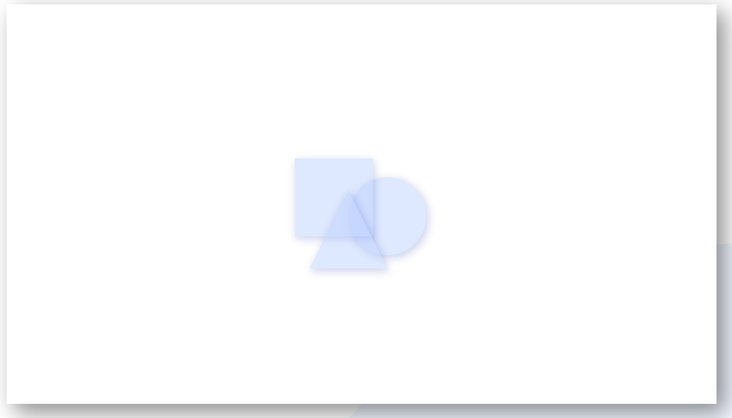
introduction to isometrics



Challenge: Achieve transitions & well Layout



Steps by Steps



Adding somethings to personalize the web pages, so it can be useful on portfolio. Still developing the idea...
